OUR VALUES

In the heart of Lombardy,
inside the flourishing
industrial hub of Bergamo,
is located Alpine Anodizing,
the new company dedicated
to the continuous production
of anodized aluminum coils.
The high quality of the workmanship and
the great flexibility of the
production process are values that
our customers recognize in us.

QUALITY, FLEXIBILITY, PUNCTUALITY

the range of products
in anodized
aluminum

ALPINE
ANODIZING

ALLOYS TO BE TREATED:

Aluminium alloys Series 1xxx / 3xxx / 5xxx

Thicknesses: from 0.2 to 1.5 mm

Widths: from 500 mm to 1,500 mm

Maximum weight: 5,500 kg

Internal diameter: 500 mm

SURFACES / APPEARANCE:

mill finish (E0*) or chemical satin (E6*)

color: natural (EV1*)

*EURAS classification

oxide thickness: from 1 μ to 15 μ

supply formats:

sheets in standard or custom sizes,

strips in original height or cut to size

PROTECTIVE FILM:

based on customer request

EXCELLENCE IN ANODIZED ALUMINUM

VERSATILITY OF USE AND RESISTANCE OVER TIME

QUALITY AND RESISTANCE
IN ARCHITECTURE

- Extremely high quality
 - Extreme resistance to atmospheric agents
 - Used in architectural and decorative projects

the advantages
of the anodizing
process

ALPINE
ANODIZING

Alpine Anodizing is part of a strategic sector in terms of circular economy and decarbonization of industrial processes. Anodization, in fact, allows low costs, production efficiency, uniformity of finish, durability over time for products with multiple applications for exteriors, interiors, decorative and technical applications.

In addition to offering important environmental benefits, anodization stands out as an ecologically responsible choice for the treatment of aluminum.

Using non-toxic chemical substances and producing little waste.

The resulting oxide layer not only extends the life of the product, but also maintains the 100% recyclability of aluminum without loss of quality.

ANODIZING: PROTECTION, DURABILITY, SUSTAINABILITY

ALPINE
ANODIZING

THE TRUE VALUE
OF ANODIZING

Quality, innovation
and attention to detail
for exclusive finishes.
Products made with passion,
in the name of Italian excellence,
and respect for the environment.
